Best Practice I

Academic practice

1) **Title of the practice** - ‘Survey’s on Social Issues’

2) **Objectives of the practice:-**

- To develop students' interest in research.
- To develop attitude towards socio-economic and political issues among students.
- To develop a clinical attitude towards research in students.
- To acquaint students with social research methods.
- Enhancing social sense among students through research.
- To develop creativity in students through research.
- To help create new researchers.

3) **The Context :-**

Research is an integral part of human knowledge. Research should be done keeping in mind the goal of searching for new knowledge as well as creating a passion for solving human problems and also creating social, economic and political sensibility and awareness in the students. From it, the link of how to achieve human development is known. Without research the problem is not known, research is the means to solve the problem. Research is a necessary technique for advancement of knowledge and development of new technologies. Research helps to understand the world around and find solutions to problems. Therefore, taking into account the need of survey, to find out the problems of social, economic and overall social system, to study them, to determine parameters and to determine the evaluation of the society at a scientific level through questionnaires or direct communication. This concept was implemented through best practice to inculcate this habit in students. The purpose of this survey is to inculcate in the students the attitude of finding solutions to social problems and experimenting with them in a scientific manner and arriving at the facts and conclusions contained therein. The main purpose of a survey is to collect data, consider

groups and make decisions about it. This survey increases the sense of unity among the students and this survey is to take the students forward in the field of research by creating an attitude that they have to give something to the society.

2) The practice

Education teaches the process of acquiring knowledge, skills, values, beliefs. In higher education, students should develop a new researcher in their mind about research or survey and also increase social feelings, sensibility and awareness along with the study. The importance of this practice is that students should become researchers through extra-curricular activities.

According to the UGC rules, how students should conduct research, how to conduct surveys, how to read essays, which topic to choose, how to reach the conclusion, what will be the benefit for the public is also clear from this. Innovation has gained importance under NEP. It will also benefit the students, no doubt it will make innovators. In order for the students to study every element of the society, in the academic session 2018-19, under the guidance of Professor Dr. Balkrishna Ingle, a survey of 'cashless transactions in Chikhli city' was conducted in which ten students participated. This survey tries to find out how the cashless concept, which existed since Ancient times, is beneficial today and how this cashless transaction keeps the government in control of every transaction. Prevention of corruption and social awareness are the two objectives of this survey.

In the same academic year, a survey was conducted on 'Participation of Women in Gram Sabha in Gram Panchayat of Chikhli Taluka' under the guidance of Prof. Dr. Nagesh Gaikwad. 16 students participated and completed this survey. In order to increase the participation of women in the Panchayat Raj system, the state government has given 50 percent reservation to women. But there is a problem in this that the actual participation of women in Gram Panchayat is very less and their participation does not get special importance. Remedial plans have also been suggested for this from the said survey.

In academic session 2018-19 under the guidance of Dr. Vijay Wakode conducted a survey on "Survey of GST Holder Traders in Chikhli Taluka regarding Goods and Services Tax System". 80 students participated in this survey. This survey was conducted in Chikhli taluka with the aim of creating public awareness about the new tax system Goods and Services Tax (GST) introduced by the central government. The new Goods and Services Tax system, which came into effect on July 1, 2017, seems to be benefiting the economy, but there is confusion among traders and citizens. 40 traders were interviewed for this survey.

In the academic session 2019-20 a survey was conducted on "Historical Study of Ancient Temple in Chikhli Taluka". The survey was conducted under the guidance of Dr. Suresh Malshikhre. 7 students participated in this survey. An attempt has been made through the said survey to find out the Indian culture, architecture and traditions by knowing the social problems. In this survey, it is seen that temple has a very big role in Indian culture. It can be seen that the objectives of the survey are to find these temples, to unravel the history, to

review the culture, to cultivate the ancient objects, to make them in good condition, to cultivate the culture and to preserve the rurality.

In the academic session 2020-21, under the guidance of Dr. Subhash Raut, a survey was conducted through the English Department on the topic "State Level E-Survey of English Language". 288 students participated in this survey. Students from Savitribai Phule University Pune, Mumbai University Mumbai, Nashik University, Bahinabai Chaudhary North Maharashtra University Jalgaon, Sant Gadgebaba Amravati University Amravati participated in this survey. In the current situation, the survey was conducted to find out whether the pressure of English language is on the minds of the students.

In the academic session 2020-21 a survey was conducted on "Participation and Role of Political Parties in Elections of Selected Gram Panchayats in Chikhli Taluka with Special Reference to Election 2020". This survey was completed by 13 students under the guidance of Dr. Nagesh Gaikwad. In this survey, the participation of political parties in Gram Panchayat elections and the role of political parties were analyzed. It was concluded that the political parties do not actively participate in the Gram Panchayat elections in this important matter.

In the academic session 2021-22, a survey was conducted under the guidance of Professor Dr. Anil Purohit on "Study of Economic and Social Conditions of Auto Drivers in Chikhli area". 12 students participated in this. After studying the economic and social conditions of the auto rickshaw drivers, their problems were understood and solutions were also suggested.

A survey on "Information Seeking Behavior of Farmers in Chikhali Taluka District Buldhana: An Analytical Study" was conducted in the academic session 2022-23 under the guidance of Professor Dr. Pradeep Barad. In this, twenty villages were selected and 200 farmers were registered and 17 students participated in this survey. An attempt was made to shed light on what the farmers understood about reading, how much they participate in reading. But in Buldhana district, farmers are seen experimenting by reading information about agriculture through YouTube and news.

In the academic year 2022-23 a survey is done on the topic "Study of the facilities available to the members of gym in Chikhli City". The main aim is to widen the scope of knowledge of sports students, to make them more active, to arouse their curiosity.

5) Evidence of success :

While implementing the concept of 'Surveys on social issues', research attitude was developed among the students of the college. According to the UGC concept, research attitude should be increased among the students, new researchers should be prepared, society-oriented discussions should be held, their problems should be solved by the youth, new researchers should emerge, new researches should come out, all the common people should benefit from it. A state level survey was also conducted in the college premises, Chikhli

taluka and Buldhana district along with the students of the college. Many students participated in this. Social, economic and political studies were done through this survey.

For example: through 'Participation of Women in Gram Sabha under Gram Panchayat', the agenda that women should be represented was implemented. An attempt was made to bring this concept to the masses through 'Cashless Transaction Survey'. It serves the purpose of removing confusion. Along with this, students could also study Indian culture and architecture through the survey of temples in Chikhli area. The survey also revealed whether English language put pressure on the students. There was also a discussion on whether political parties participate in Gram Panchayat elections. While raising public awareness about agriculture, a survey was also conducted whether farmers read about agriculture. It benefited the farmers. A study was also done on whether the exerciser gets comfortable facilities while exercising without stopping here. As a result, from all these surveys, it is noticed that many students, farmers, villagers, women, sportsmen, traders have benefited.

6) Problems encountered and resource required

While creating any good thing, there are problems and difficulties. However, in the research, the survey was done with the aim of overcoming this and how the research will be completed. Many difficulties were faced during the survey. Students had difficulty in explaining the subject given to them and some showed no interest in the subject. Some showed inability to fill the questionnaire. There was a vagueness in the answer of people questionnaire. The role of some people was not clear regarding the subject. Many students did not participate in the online survey. We were skeptical about some of the responses received if some of the questionnaires were received in incomplete form. The response was not well as the questionnaire was new for women in the survey.

Best Practice II

1. Title of the Practice - “Environmental Awareness Drive”

2. Aims and Objectives-

1. To create awareness among students about Environment.
2. To encourage students to participate in Environmental activities.
3. To form the strong bond with our surrounding.
4. To create awareness among the society about Environment.
5. To increase the participation of society in Environmental awareness.

3. The context-

Protecting the environment is the need of the time to prevent increasing pollution in urban and rural areas as well as to avoid damage to the area due to industrialization. Protecting the environment is not only the responsibility of the government, it is also the responsibility of the students, teachers and staff of the college. Also, in order to make this public awareness community-oriented, it is necessary to carry out creative activities with the citizens of the society to prevent future threats. In order to create awareness about the problem and conservation and create the ability to take environmental decisions, activities like creative tree planting, rallies and street plays have been implemented in the college as well as in the Adopted Village Division to prevent the society from tasting the toxic fruits of the polluted environment due to industrialization. Activities like tree plantation, awareness rally, tree distribution, tree binding, snake protection workshop, online environment workshop have been implemented in the college.

4. The practice -

During the last five years various environment friendly activities have been conducted by the various department of the college. By various means the departments inculcate the nature friendliness among the students.

5. Evidence of success :

The toxic effects of industrial causes helped to create an oxygen-rich environment by planting trees to some extent. The faculty, staff and students were able to create awareness about creating a green environment in the college premises. Planting at home has helped to protect the environment. Through environmental workshops, dialogues, lectures and public awareness rallies in the college premises, awareness about the environment could be created among the students and the participation of citizens was important while planting the trees in

the village. The importance of tree plantation at the village level was able to create the concept of tree cultivation. Tree plantation has helped a lot in making the college campus pollution free. It is seen that 'Vrikshavalli Amha Soyre' has helped to put the concept into action.

6.Problems encountered and resources required-

During environmental awareness, the participation of the students was not as much as it should have been. It has also been informed that some students have not planted it, again through communication, awareness was created among the students about planting trees and they have planted those trees at their homes. It helped to reduce the environmental pollution which was very high. The problem is that the planted trees get burnt in the summer, but now they have to be protected by proper planting and the trees die due to lack of water. After planting trees in the village, the villager had not taken care of these trees in proper way.

7.Notes (optional) :

The effect of the activities which were carried out such as environmental awareness seminars, workshops and rallies was also seen in the college and adopted village. Prof. of our college, Dr. Vijay Wakode has planted two-way trees on Chikhli to Savana road and cultivated the trees while Prof. Dr. Prafulla Gavai has tried to cultivate the environment by planting 300 plants in the bins in the terrace garden at Amravati. On the occasion of the birthday of the faculty and staff, the activity of 'Gift of trees and bins' is implemented in the college, while the concept of 'Vrikshavalli Amha Soyre' is implemented like Rakshabandhan. By creating awareness about tree plantation among the students through Nature Club, Ku.Shital Wagh and Ambadas Wagh have created a nursery at their home in Masrul, through this trees are also distributed. Along with tree conservation, Jusapi campaign was implemented in the college to avoid the use of plastic.

Academic year - 2018-19

1.Environment Awareness Rally, (27, Sept.2018):

Ours is a bio-diverse land where tremendous of species of animals and trees are found but like others we too are facing the challenges and downfall in environment sustainability. One of the modern monster which vigorously destroying our surrounding in front of us and if not restricted by various means possibly engulf the beautiful surrounding that we have today, viz. Plastic, reached everywhere and slowly but steadily capturing our surrounding. Therefore to cope with this challenge we initiated an environment friendly activity i.e. distribution of Old Sari Bags in the market with a view to aware the public not to use plastic bags instead bags made up of cloth. To inculcate the love and affection for nature is a prime objective.

2.Tree plantation Activities. (09/07/2018)

At adopted village Palas-khed, both departments collaboratively organised a tree plantation program and with the precious hands of Swami Harichaitanya Maharaj ,50 trees were planted.

Academic year - 2020-21

1. Online Workshop on Environment,(21st March 2021):

During corona pandemic an online workshop was organised, in which the guest showed the garden made on the roof.

2. Tree Distribution, (20, Sept. 2021):

More than 150 trees were distributed to be planted among the college students. For planting at their respective places.

3. Dept.of NSS - tree plantation Activities

NSS unit of the college organised three different environment friendly programs as follows-

- a) Aug.15,2020 -50 trees were planted
- b) Sept.01,2020- 40 trees were planted in the Chikhli and Shelud area
- c) Sept.05,2020 -55 trees were planted in the adopted village Palaskhed.

Academic year - 2021-22

1.Tree Plantation and Distribution -

On Aug.15, 2021 the trees of worth Rs.3000/- was bought for the plantation purpose and in collaboration with Nature club 150 tree were distributed.

2.Tree Plantation-

This environment friendly activity was organised by the dept. of NCC. On July 26,2021,in which the Principal of the college ,Dr.Subhash Gawhane,all Teaching and non-teaching staff along with the students were present.05 trees were planted in college premise itself.

3. Plantation to create a garden and Environment oath,(15, Aug. 2021):

`To make the campus more environment friendly the department took initiative to develop a small garden in college premise. On the occasion of Independence day the idea started taking the shape.

3. Planting Mango seeds:

This activity is done at the beginning of the new session while the rainy season starts. When the saplings are ready it is distributed and used at the time of programs for the felicitation of the guests.

4. Study tour:

On 28 March 2023 a study tour was organized at Lonar and Hiwara Aashram in which **65 students** participated. The tour is organized with the objective of making the students aware about the environmental issues and finding of the solutions for that.

5. Puneet Sagar Campaign

Puneet Sagar Campaign to be conducted by NCC on December 7, 2022 under the guidance of Colonel Amit Bhatnagar, Commanding Officer of 13 Maharashtra Battalion NCC Khamgaon, NCC unit of SPM college cleaned Jamuvanti river at old village of Chikhali town, a total of 78 students of NCC department participated in this cleaning. While cleaning the river, the importance of cleaning the river, the head of NCC unit Lt. Sharad Rave gave different examples through his speech, the students also understood the importance of the mission. and the garbage was disposed of by the local municipality. Dr. Subhash Gavane, the principal of the college, guided this campaign, while the cooperation of prof. Shailendra Jain and prof. Manish Palve was also received for this campaign.

6. Puneet Sagar Mission(6 Feb.2023)

On 6th February 2023, the NCC unit of the college enthusiastically registered its participation for Puneet Sagar Abhiyaan being implemented through NCC. For this, the NCC unit of the college cleaned the dam area near Chikhli town. About 200 kg of garbage was collected in this cleanup and it was properly disposed of by the municipality. Commanding Officer of 13 Maharashtra Battalion Colonel Amit Bhatnagar and RM Dharmendra Singh were guided for this operation. The principal of the college, Dr. Subhash Gavane, extended his best wishes for this campaign. This campaign was organized and planned by the head of NCC unit Lt. Sharad Rave.
