In the period of COVID – 19 pandemic everybody had to confine in the their respective houses which was unwilling and unsolvable predicament in the history that affected the Education system badly, apart from this the solution came into existence in the form of “Working from Home” policy and no doubt the organization of State, National and International level seminars, Workshops, Conference and Faculty Development Program have been being taken place in the form of Webinars with the help of ICT. Teachers from both sides shared this information with one another through social media like emails, Website, WhatsApp, Telegrams, Facebook, SMS ,MMS etc. are used for this purpose. It is found very fruitful and valuable for exchanging information on research and education program as well as to increase the number of participants in the programs organized by the friends to enhance the mutual understanding.
